BAMBARRA BEACH WEST, Middle Caicos

Middle Caicos has well deserved fame as a gorgeous peaceful island with few residents and limited amenities. The completed causeway from North Caicos and overall road repairs make travel to this tranquil island a pleasure along a smooth road all the way from the ferry landing at Sandy Point! Bambarra beach is a curve of soft sand four miles long, moments away from the Bambarra beach west location around the point. This oceanfront lot is magnificent with the reef just offshore, and amazing nightsky! Conch Bar village is 5 minutes west with small food shops, café and bar.
