

FORBES REALTY TCI

Bambarra Beach West: Interior lot .37 acre

Price Reduced! Asking \$30,000

This is a wonderful opportunity to purchase a property within a new subdivision with paved roads and power to all lots. The lot is located in the central area of the island, near Platico Point with direct access off the main paved road. A new home is under construction within the subdivision and skilled contractors on island. Villas on Middle Caicos have excellent rental business for roughly seven months of the year. Pictures below of the famous 4 mile curve of central Bambarra beach and the annual Valentine's Day Cup Model Sailboat races.
