

FORBES REALTY TCI

Oceanview lot, Bambarra Village

This is a one acre lot right on the main road, with views from east to west out over the sea and an excellent building site. Power runs along the main road at the front of the property providing easy access to build.

The lot sits proudly in the centre of Bambarra village, near the old church, a fifteen minute walk to the graceful four mile curve of Bambarra beach. The prevailing wind runs across the property, keeping mosquitoes at bay and naturally cooling the site.

Asking price only \$55,000!
