

FORBES REALTY TCI

Three Mary Cays Subdivision, North Caicos

Three Mary Cays is a well known scenic site on the north shore of North Caicos, home to three small offshore cays providing terrific snorkeling amongst schools of multi-coloured fish. It is an extraordinary location, with beaches stretching for miles in both directions. This subdivision has been well planned to allow all lots easy access to the beach with ten pathways from the beachroad onto the shore. This subdivision offers the opportunity to purchase one acre of property at several price levels – from \$35,000 for a pondside lot just 5 minutes walk from the spectacular beach to a second tier lot at \$99,000.
