

Sand Dollar

SandDollar is waiting for you . . . 6.41 acres of vacant land, sparkling ocean at the shore, an established private island, an exclusive community of members...it's time to come and build your Caribbean dream home. This unique property is on the gorgeous north shore of Pine Cay, at the headland formed by the huge sand bar creating Sand Dollar Point.

The prevailing wind brings a gentle breeze constantly across the property. A delightful pond provides a stunning landscape feature and affords the enjoyment of varied birdlife all year long – flamingoes, terns, ospreys, kestrels – from the comfort of your great room and decks. The pond runs across your property into the adjoining lot, another spacious 5 acre property available for sale.

Whether you choose one of the fine architects here in Turks & Caicos Islands or bring our own, the site affords a fabulous blank canvas for anything from ultramodern to traditional tropical – be creative! Quality builders with excellent craftsmen are here to construct your home, while a variety of disciplined supervisory, logistical and administrative services are on hand to assist you.

Very few large beachfront parcels come for sale across TCI, and on Pine Cay this kind of opportunity is rare. Sand Dollar is one of only two large vacant properties left on Pine Cay. Imagine spectacular sunrises and sunsets from your deck, with the reef surf breaking far offshore and the waves washing at your feet. Come and experience the island for yourself soon.
